

# Helping the Helpers: Family Connections to Support Recovery

Thursday, September 19, 2024  
6:00 pm | Virtual (Zoom)

We know that people with substance use disorders are more successful in their recovery when they are surrounded by a supportive network of people who love them and are equally committed to their success. As parents and caregivers, how do we support the recovery of our loved one, while also taking care of ourselves? Join **MCF** and **Maryland Treatment Centers** for an engaging and informative discussion of ways to help yourself while you help your loved one.

[Register Here!](#)

MCF is proud to partner with Maryland Treatment Centers to bring this event to our community.
